

A Knowledge Management Platform to Support Cancer Control in Canada

International Cancer Control Congress 2009
Workshop 5: Translating Research Into Practice

Anna Greenberg, Director, Knowledge Management

What I will cover

- Three examples of our approach to managing knowledge in Canada to advance cancer control

Canada

Population: 37.3 million

Ethnocultural diversity

- 16% “visible minorities”
- 20% immigrants
- 5% First Nations, Inuit, Métis

Cancer

- Incidence: 170,000
- Mortality: 79,000

Canadian Partnership Against Cancer

- *Canadian Strategy for Cancer Control*
 - decade of work by a broad coalition
- Canadian **Partnership** Against Cancer
 - independent, arms length organization funded by federal government

What problems are we trying to solve?

1. **Shared quality concerns** in cancer control across Canada

2. **Variability** (practice, access, outcomes, etc.)

3. Vast amounts **new evidence/ knowledge** in cancer control

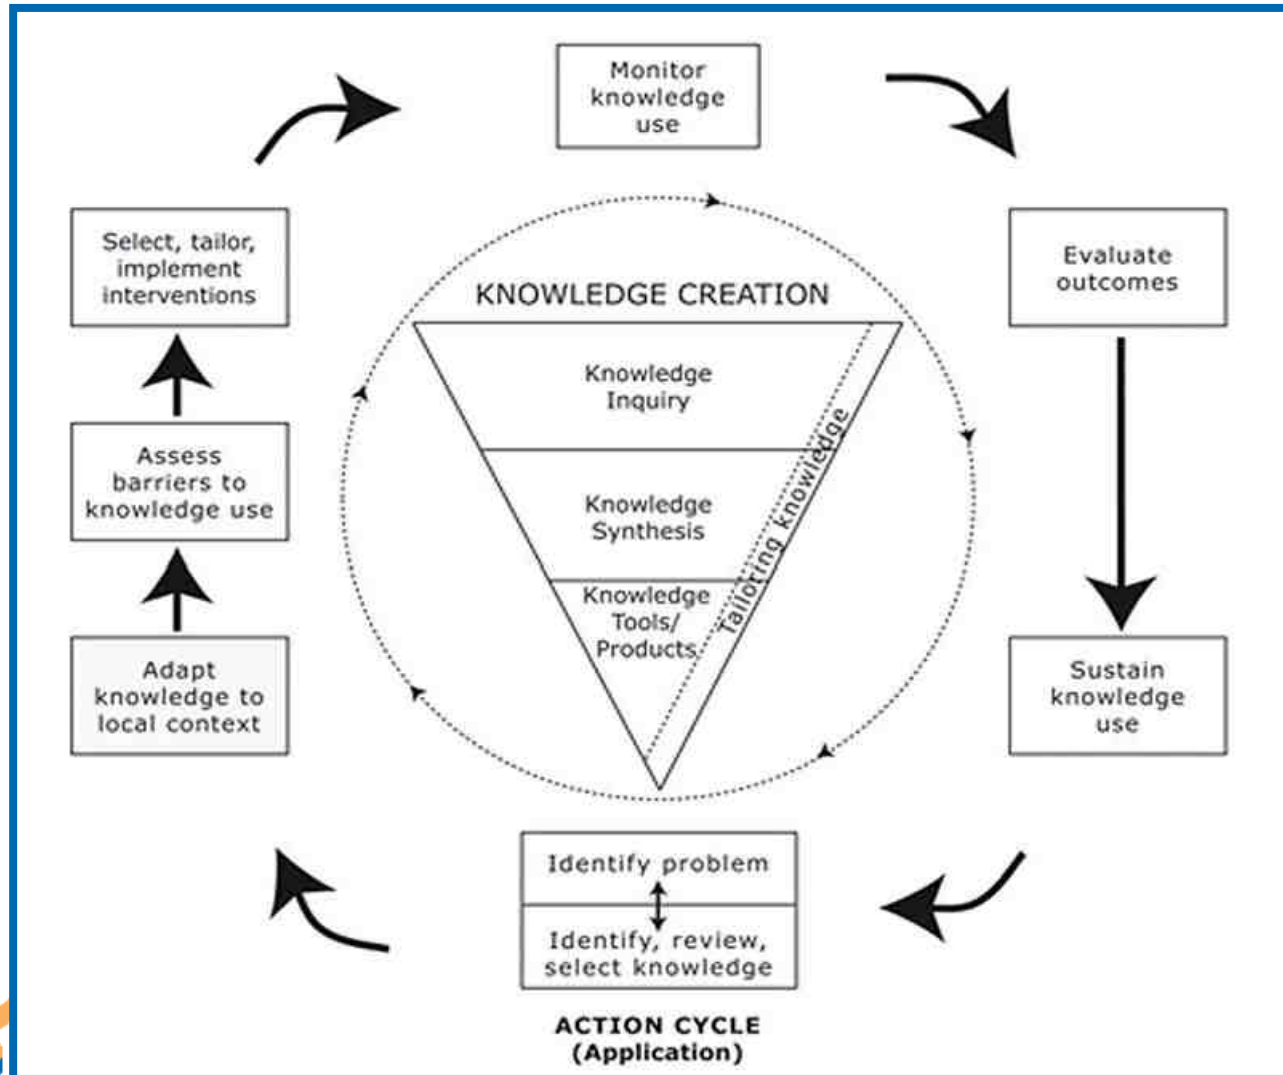

4. **Data gaps** in cancer control + **underutilization** of existing data

5. **Duplication** of effort/ resources across jurisdictions, sectors

Graham et al. Knowledge to Action Cycle

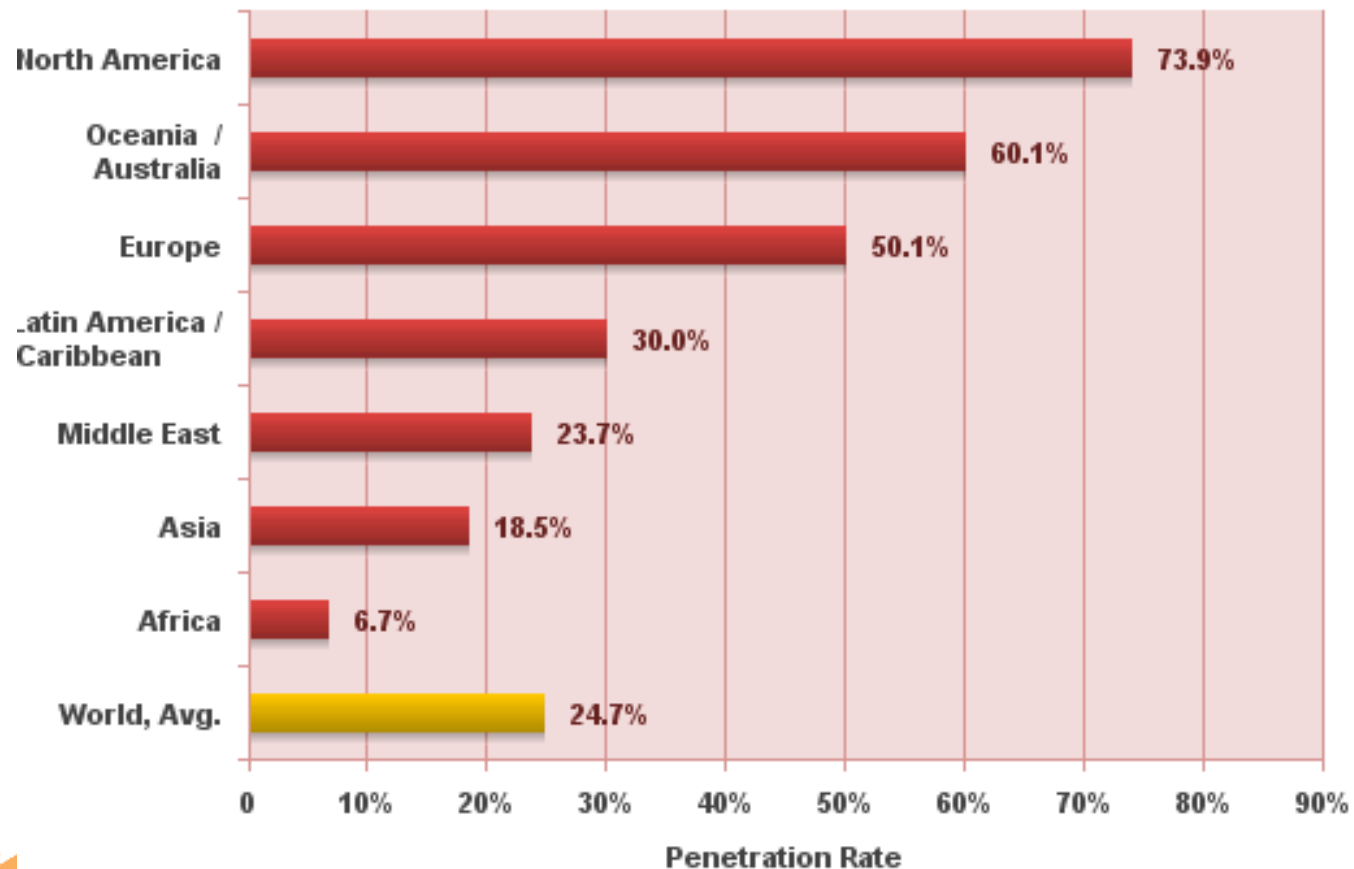

Graham ID, Logan J, Harrison MB, Straus SE, Tetroe J, Caswell W, Robinson N. Lost in knowledge translation: time for a map? The Journal of continuing education in the health professions. 2006, 26(1):13-24.

Considerations for the web as a knowledge management vehicle

Current global internet adoption

World Internet Penetration Rates by Geographic Regions

Changing expectations...

2009 Demographics of American e-Patients

	2000	2009
Americans with internet access	46%	74%
Americans that look online for health info	25%	61%

Age	% of Adults
18 - 29	72
30 - 49	71
50 - 64	59
65 +	27

Elearning modules to share best practice

Welcome to @YourSide Colleague®

Cancer Care

This course will guide you in everything you need to know about the fundamentals of cancer. From caring for clients with cancer, to helping them reduce their risk of developing cancer in the first place, you will explore all the aspects of cancer care.
